Mina Yousry

336T El-Gesh Street | Hadaee El-Ahram,Giza | 01154015404 |
Email: menayousry60@hotmail.com | GitHub: https://github.com/MinaYousryGhattas

Objective

I am undergraduate student search for Internship to increase my skills and experience.

Education

- **Faculty of Computers and information, Cairo University**
  - undergraduate | expected 2019
  - Computer science Department
  - GPA: 3.25 / 4.00 which equivalent to Very Good with honor.
- **Mostafa Kamel Integrated Language School (Secondary stage)**
  - 93.5 % grade

Experience

From 01/7/2017 to 01/8/2017

Software Developer | National Bank of Egypt | Egypt

Projects

- **A2Z Online Market**
  - It is an e-commerce application
  - Build using spring boot in backend and angularJs in frontend.
  - Testing using TestNG in unit testing and Selenium in (E2E testing)
  - https://github.com/MustafaSaber/eCommerce_Application

- **Maze Game(CLI)**
  - We designed a Game that contain monsters and players. Players try to escape from monsters and monsters using shortest path algorithms to find this players
- **Café Simulator**.
  - It is application that simulate café or restaurant which contain customers that do basic operations like enter, order, eat and leaves, it shows tables and what customers do on it.
  - https://github.com/MinaYousryGhattas/Cafe_Simulator_WithJavaThreading

- **Dead lock detection algorithms**
  - It is application that test resource allocation and check if some resource allocation will cause deadlock.
  - https://github.com/MinaYousryGhattas/BankerAlgorithmDeadlockAvoidance
- **Image Compression application**
  - It is Java application that compress and decompress an image using Vector quantization algorithm
  - https://github.com/MinaYousryGhattas/LossyCompression-VectorQuantization
- **Text compression application**
  - It is Java application that compress and decompress an text using Standard Huffman algorithm
  - https://github.com/MinaYousryGhattas/TextCompression

Technical Skills

- C/C++
- Java
- Objected Oriented programming
- Html, CSS, PHP
- Software architectures
- Data base designing
- Parallel processing
- Assembly Language
- Python
- Data structure
- Algorithms
- Design patterns
- VCS (GitHub)
- Unit testing (TestNG)
- E2E testing (Selenuim)

Skills

- Problem solving
- Able to work in teams
- Working under pressure
- Fast Learner
- Very good in communication

Personal Information

- **Name:** Mina Yousry
- **Nationality:** Egyptian.
- **DOB:** 01 February 1997.

Hobbies

- Swimming
- Football
